

Round and round

Original song by Woody Guthrie: Round and round Hitler's grave.

This text by: Grandparents Climateaction Aarhus

1 Åhhh..... (oh)
I wish I had a slipper
or had some fancy shoes
But most of all I need
the high emissions to reduce
Hey
Round and round and round we go
We will never stop
Crises are increasing and
we're more than just fed up.

2 Åhhh.....
I wish I had a chicken
I wish I had a cow
But even more I wish to stop
the climate crises now
Hey
Round and round and round we go
We're not going home
Climate crises must be solved
so we intend to roam.

3 Åhhh.....
I wish I could pretend that
the world was not at risk
and that the climate would not be
on our problem list
Hey
Round and round and round we go
never giving up
We will all together try
to make emissions stop

4 Åhhh.....
We are getting older
but we will find no rest
because we need to gather try
to make our future best
Hey
Round and round and round we go
side by side unite!
Grannies: we are out to fight
and we shall never hide
HEY
